1. Introduction

- 1.1 Cotswold District Council maintains a record of planning permissions that result in the gain or loss of dwellings. A survey is undertaken every year of each site to determine the number of dwellings that have been completed or are under construction and any permissions that have expired. This report sets out the findings of these surveys. It also includes data on historic annual dwelling completions, as well as data on several Cotswold District Local Plan 2011-2031 (the Local Plan) monitoring indicators.
- 1.2 The information provided in this document shows net changes to dwelling stock, as it is the net increases that count towards meeting the Local Plan's housing requirement. Therefore, account is taken of any loss of dwellings that has occurred. Some sites may show a loss this year where a dwelling has been demolished or is in the process of being subdivided or converted. These sites may also appear in the commitments section as the replacement dwellings are either not started or are under construction.
- 1.3 The monitoring period covered in this report spans 1 April 2024 to 31 March 2025. While accurate at the time of publication, this report is subject to change due to continuing monitoring.

How is the report set out?

- 1.4 The report is divided into ten sections:
 - Section 1 provides a guide to the report and explains its purpose. It defines the monitoring year, how the data is presented, and what is counted as a dwelling.
 - Section 2 summarises dwelling completions and commitments across the District, including breakdowns by Principal Settlements and parishes. It also presents long-term trends in housing delivery and overall supply since 2011.
 - Section 3 identifies any corrections to previous Residential Land Availability (RLA) reports to ensure the accuracy of the monitoring data.
 - Section 4 sets out affordable housing provision, including the number, type and tenure of affordable dwellings delivered, as well as losses such as through Right to Buy.
 - Section 5 provides information on Gypsy, Traveller and Travelling Showpeople accommodation, including identified need, supply of pitches, and progress towards meeting that need.
 - Section 6 covers care accommodation, including sheltered housing, extra care housing, and nursing and residential care provision. It sets out both completions and commitments and explains their contribution to housing supply.

- Section 7 details student accommodation provision, including completed and committed purpose-built student housing and its contribution to the housing land supply.
- Section 8 lists all dwellings completed within the District during the 2024/25 monitoring period on a site-by-site basis.
- Section 9 lists all committed dwellings at 1 April 2025, including sites with planning permission that are either not started or under construction.
- Section 10 identifies planning permissions that lapsed during the 2024/25 monitoring period and are no longer expected to contribute to housing supply.

What is included in the figures?

- 1.5 The figures in this report contain all new dwellings created, including new builds, residential subdivisions, conversions, changes of use and houses restored from dereliction. Agricultural workers' dwellings, tied by a condition or agreement, are also included. In addition, purpose-built, separate homes (e.g. self-contained flats clustered into units with four to six bedrooms) for students are included. Some sheltered or extra care accommodation units are also included where they correspond with the Office of National Statistics' dwelling definition, which is:

*"A self-contained unit of accommodation. Self-containment is where all the rooms (including kitchen, bathroom and toilet) in a household's accommodation are behind a single door which only that household can use. Non-self-contained household spaces at the same address should be counted together as a single dwelling. Therefore a dwelling can consist of one self-contained household space or two or more non-self-contained household spaces at the same address"*¹

- 1.6 Replacement dwellings are calculated for their net delivery, as there may be a loss one year with the gain of the replacement dwelling the following year. The figures exclude ancillary accommodation such as 'granny flats' that are tied by planning condition and cannot become separate permanent units of accommodation. Similarly, holiday lets are not included.

2. Summary of Residential Development

- 2.1 Table 1 summarises the net total of completed dwellings and commitments in Cotswold District as of 1 April 2025. There is a net total of 10,415 completed or committed dwellings since 2011, some which are expected to be completed after 31 March 2031 (i.e. the end of the Local Plan period). In addition, a further 191 dwellings' worth of housing has been released to the market resulting from completed or committed C2 Use Class communal accommodation developments.

Table 1 – Net dwelling completions and commitments

Summary	Net figure (dwellings)
Dwelling completions 1 April 2024 to 31 March 2025	264
Dwelling completions 1 April 2011 to 31 March 2025	6,915
Dwelling commitments at 1 April 2025	3,500

- 2.2 Table 2 summarises the net amount of housing that is released in the housing market resulting from C2 Use Class communal accommodation developments in Cotswold District as of 1 April 2025. The figures derive from Tables 11, 12, 15 and 16.

Table 2 – Net amount of housing released in the housing market resulting from C2 Use Class communal accommodation developments (nursing and residential care bedrooms + students accommodation bedrooms)

Summary	Net dwellings released in housing market
C2 communal accommodation completions 1 April 2024 to 31 March 2025	8
C2 communal accommodation completions 1 April 2011 to 31 March 2025	191
C2 communal accommodation commitments at 1 April 2025	0

- 2.3 Table 3 summarises the dwelling completions and commitments in the District's Principal Settlements. This includes dwellings within or adjacent to the Development Boundary of the District's Principal Settlements, as defined by the Local Plan. The figures may therefore contain some dwellings in adjoining parishes, which are for practical purposes part of a Principal Settlement.

- 2.4 A hyphen (–) denotes that there were no completions / completions and a zero (0) denotes that although dwellings are either committed or have been completed, there is no net gain or loss of dwellings.

5 Gypsy, Traveller and Travelling Showpeople Provision

- 5.1. The adopted Local Plan identifies a need for 3 additional pitches for Travellers who meet the Planning Policy for Traveller Sites (DCLG, August 2015) definition over the period 2016-2031 in Cotswold District. There is no identified need for travelling show person accommodation in the district.
- 5.2. Since the Local Plan was adopted, the [Gloucestershire Gypsy and Traveller Accommodation Assessment \(RRR, November 2022\)](#) (the GTAA) and the [Gloucestershire Gypsy, Traveller and Travelling Showpeople Accommodation Assessment \(RRR, November 2022\) – addendum for Cotswold District Council \(RRR, October 2023\)](#) (the GTAA Addendum) have been produced. There continues to be no identified need for travelling show person accommodation in the district. Table 6 identifies the District's Traveller pitch accommodation needs between 2021 and 2031:

Table 7 – Cotswold District Traveller pitch needs (2021-31)

- 6.3. Table 11 identifies nursing and residential care developments that have been delivered since 1 April 2011. The figures are provided as net additional bedspaces.
- 6.4. In accordance with national guidance², local planning authorities need to count housing provided for older people, including communal residential institutions in Use Class C2, as part of their housing land supply. This contribution is based on the amount of accommodation released in the housing market.
- 6.5. For communal residential care institutions, to establish the amount of accommodation released in the housing market, authorities should base calculations on the average number of adults living in households, using the published [Census data](#)³. This identifies the average number of adults living in households is 1.9 adults per household, which is the relevant conversion ratio for nursing and residential bedspaces in Cotswold District. This means that one dwelling is released to the housing market for every 1.9 nursing or residential bedrooms that are created. This figure has been calculated in accordance with the latest version of the Government's [Housing Delivery Test measurement rule book](#)⁴, updated in December 2024.

7. Student Accommodation

- 7.1. There are believed to have been no purpose built student dwellings delivered in Cotswold District since 1 April 2011, other than houses in multiple occupation built through permitted development rights and which have not needed planning permission. However, Table 14 identifies committed purpose built student accommodation dwellings at 1 April 2025. The figures are provided as net additional dwellings and are already included within the housing land supply to avoid double counting.

- 7.2. Table 15 identifies purpose built communal student accommodation bedrooms that have been completed since 1 April 2011. The figures are provided as net additional bedspaces.
- 7.3. In accordance with national guidance⁵, local planning authorities need to count student communal accommodation, such as halls of residence in Use Class C2, as part of their housing land supply. This contribution is based on the amount of accommodation released in the housing market.
- 7.4. The Census data that identifies the average number of students living in student only accommodation is 2.4 adults per household, which is the relevant conversion ratio for student accommodation in Cotswold District. This means that one dwelling is released to the housing market for every 2.4 student communal accommodation bedrooms that are created. This figure has been calculated in accordance with the latest version of the Government's [Housing Delivery Test measurement rule book](#)⁶, updated in December 2024.
