<p><b>Please give details of your reasons for support/opposition, or make other comments here:</b></p> <p>The Sustainability Issues section mentions housing development in Fairford and that there has been no provision to address wider sustainability issues in relation to school and health provision, despite this extensive expansion. Furthermore, it states that with the imminent planning applications for a further c.200+ houses in Fairford it will make matters worse for access to school places and health services (doctor's surgery and hospital).</p> <p>This has a knock-on effect for surrounding villages whose populations utilise these services and planning decisions for current and future housing provision in these surrounding villages should take into account the situation in Fairford when considering planning applications for housing development.</p> <p style="text-align: right;">(Continue on separate sheet if necessary)</p>
