How is the data set out?	4
Why monitor employment land statistics?	5
2. Summary of employment development in Cotswold District 2020/25.....	6
3. Completions in 2020/25	9
4. Commitments at 1 April 2025	31
5. Lapsed planning permissions in 2020/25	44

1. Introduction

- 1.1 Cotswold District Council maintains a record of planning permissions that result in the gain or loss of employment land and floorspace. Usually, a site-by-site survey is undertaken each year to determine which permissions are being implemented, which have been completed and any that have expired. However, due to time and capacity constraints, this work has been delayed in recent years.
- 1.2 The monitoring period covered in this report therefore runs from 1 April 2020 to 31 March 2025 (hereafter referred to as 2020/25). This document reports on net changes to different types of employment land and floorspace in 2020/25. Account is taken of any loss of employment land or floorspace occurring as a result of demolition or conversion. Some sites may show a loss where a building has been demolished or is in the process of having a change of use. These sites may also appear in the commitments section as the replacement building or use has either not started or is under construction.
- 1.3 While accurate at the time of publication, this report is subject to change due to continuing monitoring.

How is the data set out?

- 1.4 This report is divided into five sections. Following this Introduction (Section 1), Section 2 provides a summary of employment development in Cotswold District. Sections 3, 4 and 5 provide schedules of completions, commitments and lapsed planning permissions respectively.
- 1.5 The figures are summarised into different types of employment land use class that were present in April 2025. Further details of the use classes can be seen on the Planning Portal website, and a summary is provided below:
 - E(g) – Commercial, Business and Service (formerly B1)¹
 - E(g)(i) – Offices
 - E(g)(ii) – Research and Development of Products or Processes
 - E(g)(iii) – Industrial processes
 - B2 – General Industrial
 - B8 – Storage or Distribution
- 1.6 The site areas and floorspace measurements used in this report are taken from planning application forms and the Council's own measurements of site areas.

¹ Class E(g) includes activities previously covered under the revoked Class B1(a, b, c) and now forms part of the broader Class E – Commercial, Business and Service category established in the 2020 Use Classes amendments.

Where measurements are not provided, they are calculated using information submitted to support planning applications.

- 1.7 There are cases where there is more than one type of use proposed to be gained or lost and where the floorspace or site area is not defined by the respective planning land use classes. In such cases, the Council has used the supporting information provided with the planning application to calculate the proposed floorspace or site area. For instance, where a development creates or loses more than one type of use, the site area has been calculated proportionately using the proposed floorspace loss or gain as a guide. In cases where it is not possible to ascertain a breakdown of how much floorspace or land is being lost or created, the overall floorspace / site area has been reported or it has only been shown that a planning application exists, but the site area or floorspace measurements are not reported at all.
- 1.8 Consideration has also been given to whether developments are on existing economic development land or whether new economic development land is being created. In the circumstance where a scheme intensifies the use of existing site, only the part of that site that receives new development has been reported as new economic development land and not the entire site.

Why monitor employment land statistics?

- 1.9 The Cotswold District Local Plan (2011-31) (the adopted Local Plan) implements economic objectives through several policies, which include providing land allocated for economic development (policies S1-S19) and protecting Established Employment Sites (policy EC2). Through this, the adopted Local Plan provides the spatial framework to support the implementation of the Council's corporate priorities and the strategic economic ambitions for Gloucestershire.
- 1.10 Monitoring also helps to identify patterns of change and tests whether policies are working or whether they will need to be revised in the next Local Plan review. Furthermore, providing up to date information helps to make more informed decisions when determining planning applications, such as the current position on the need for a particular type of development.

2. Summary of employment development in Cotswold District 2020/25

- 2.1 Table 1 provides a summary of completed employment developments in the District in 2020/25.
- 2.2 Despite a gain of 6.53 hectares (ha) of E(g) employment land, this only results in 57 square meter gain (m²) of E(g) floorspace. The reason for this is that the employment land lost was used more intensively with 6.66 ha of land lost holding almost the same amount of floorspace in square meters as the 13.20 ha of land gained.

Table 1 – Completions in 2020/25

Use Class	Gain (ha)	Gain (m ²)	Loss (ha)	Loss (m ²)	Net change (ha)	Net change (m ²)
E(g) – Offices / R&D / Industrial Processes	13.20	14,237	6.66	14,180	6.53	57
B2 – General industrial	6.59	8,667	5.39	7,880	1.20	787
B8 – Storage or distribution	18.07	30,342	9.21	7,433	8.86	22,909

- 2.3 Table 2 summarises employment developments in the District at 1 April 2025 that had planning permission and were either not started or were under construction.

Table 2 – Commitments at 1 April 2025

Use Class	Gain (ha)	Gain (m ²)	Loss (ha)	Loss (m ²)	Net change (ha)	Net change (m ²)
E(g) – Offices / R&D / Industrial Processes	19.54	59,945	0.92	1,583	18.62	58,362
B2 – General industrial	9.30	21,080	1.93	3,870	7.37	17,210
B8 – Storage or distribution	11.24	22,375	1.52	2,882	9.72	19,493

- 2.4 Table 3 analyses whether the District's 24.4ha B class employment land requirement² is on course to being delivered by 2031, which is the end of the adopted Local Plan period. The table shows that the combined total for completions for the period 2016/25, commitments at 1 April 2025 and adopted Local Plan employment land allocations are expected to deliver the full 24.4ha employment land requirement. With the changes to the Use Classes system the Council now includes the new E(g) class instead of B1.

² Provided in adopted Local Plan policy DS1 for the period 1 April 2016 to 31 March 2031

- 2.5 More than three times the amount of employment land is expected to be delivered by the end of the adopted Local Plan period (73.24 ha) compared to the identified need (24.4 ha).
- 2.6 A substantial part of this gain comes from B8 employment land with almost double the required amount already delivered and triple the amount forecast when including commitments. While B8 plays a valuable role in supporting logistics and supply chains, the scale of growth has implications for employment land availability for higher-value E(g) and B2 uses, and future economic balance. B8 typically generates lower employment and occupies larger sites, the strong growth in this sector may influence the District's ability to accommodate future office, R&D, and industrial demand.

Table 3 – Gain / loss of B and E(g) class employment land

Type	Net land gained / lost (ha) (2016-2025)	Net committed land (ha) at 1 April 2025	Net remaining allocated land (ha) at 1 April 2025	Total	Requirement (ha)	Shortfall?
E(g)	8.86	18.62	8.25	35.73	16.60	No
B2	3.05	7.37	0	10.42	-2.10	No
B8	17.37	9.72	0	27.09	9.90	No
Total	29.28	35.71	8.25	73.24	24.40	No

- 2.7 The adopted Local Plan also includes a forecasted gain of 64,626m² B1 Office floorspace³. However, with the changes to the Use Classes system, developers are now able to gain permission for E(g) Use Class without needing to specify which of the 3 subdivision (such as E(g)(i) – Offices) they are planning to implement. The forecasted gain is therefore now compared to the overall figures for the new E(g) class.

Table 4 – Gain / loss of E(g) Floorspace

Type	Floorspace forecast (m ²) (2016-2031)	Annualised floorspace forecast (m ²)	Net floorspace gained / lost (m ²)	Net committed floorspace (m ²) at 1 April 2025	Cumulative E(g) floorspace built or committed (m ²) at 1 April 2025
E(g)	64,626	4,308	7,453	58,362	65,815

³ Provided at paragraph 6.1.4 of the adopted Local Plan for the period 1 April 2016 to 31 March 2031

- 2.8 Table 5 monitors the adopted Local Plan employment land allocations. Four of the allocations have gained planning permission since the adoption of the Local Plan in August 2018.

Table 5 – Employment Land Allocations at 1 April 2025

Parish	Site Name	Size (ha)	Type	Permission
Allocations with Permissions				
Cirencester	Land to the south of Chesterton	9.10	B1/B2/B8	16/00054/OUT
Bourton-on-the-Water	Land north of Bourton Industrial Estate / Business Park	3.38	B1/B2/B8	15/03318/OUT
Chipping Campden	Battle Brook / Extension to Campden Business Park	0.67	B1/B2/B8	21/03116/OUT
Willersey	Land north of B4632 and east of employment estate	1.97	B1/B2/B8	22/03534/FUL
Allocations Without Permissions				
Lechlade	Land north of Butler's Court	1.25	B1	–
Moreton-in-Marsh	Fire Service College B	7.00	B1	–

3. Completions in 2020/25

3.1 Table 6 lists the economic developments completed in Cotswold District in 2020/25 by individual sites.

Table 6 – Net completions by individual sites in 2020/2025
