1. Introduction	4
How is the data set out?	4
Why monitor employment land statistics?	6
2. Summary of employment development in Cotswold District 2025/26.....	6
3. Completions in 2025/26	9
4. Commitments at 1 April 2026	12
5. Lapsed planning permissions in 2025/26	29

1. Introduction

- 1.1 Cotswold District Council maintains a record of planning permissions that result in the gain or loss of employment land and floorspace. Usually, a site-by-site survey is undertaken each year to determine which permissions are being implemented, which have been completed and any that have expired.
- 1.2 The monitoring period covered in this report runs from 1 April 2025 to 31 March 2026 (hereafter referred to as 2025/26). This document reports on net changes to different types of employment land and floorspace in 2025/26. Account is taken of any loss of employment land or floorspace occurring resulting from demolition or conversion. Some sites may show a loss where a building has been demolished or is in the process of having a change of use. These sites may also appear in the commitments section as the replacement building or use has either not started or is under construction.
- 1.3 This report follows the previous monitoring update, which addressed a backlog in employment land monitoring for the 1 April 2020 to 31 March 2025 period. Site visits to assess employment development across this period were undertaken in December 2025. Monitoring visits for the 2025/26 year were subsequently completed in March 2026, resulting in a limited interval between monitoring periods.
- 1.4 As a result, there has been a reduced opportunity for additional development, particularly completions, to occur and be recorded. The figures for 2025/26 are influenced by this overlap and do not reflect a full monitoring year. The data in this report should therefore be read alongside the previous Employment Land Monitoring Report, rather than interpreted as a change in overall delivery trends. The previous report is available on the Council's website: <https://www.cotswold.gov.uk/planning-and-building/planning-policy/policy-documentation-and-monitoring/>.
- 1.5 While accurate at the time of publication, this report is subject to change due to continuing monitoring.

How is the data set out?

- 1.6 This report is divided into five sections. Following this Introduction (Section 1), Section 2 provides a summary of employment development in Cotswold District. Sections 3, 4 and 5 provide schedules of completions, commitments and lapsed planning permissions respectively.

1.7 The figures are summarised into different types of employment land use class that were present in April 2026. Further details of the use classes can be seen on the Planning Portal website¹, and a summary is provided below:

- E(g) – Commercial, Business and Service (formerly B1)
 - E(g)(i) – Offices
 - E(g)(ii) – Research and Development of Products or Processes
 - E(g)(iii) – Industrial processes
- B2 – General Industrial
- B8 – Storage or Distribution

Note: Class E(g) includes activities previously covered under the revoked Class B1(a, b, c) and now forms part of the broader Class E – Commercial, Business and Service category established in the 2020 Use Classes amendments.

1.8 The site areas and floorspace measurements used in this report are taken from planning application forms and the Council's own measurements of site areas. Where measurements are not provided, they are calculated using information submitted to support planning applications.

1.9 There are cases where there is more than one type of use proposed to be gained or lost and where the floorspace or site area is not defined by the respective planning land use classes. In such cases, the Council has used the supporting information provided with the planning application to calculate the proposed floorspace or site area. For instance, where a development creates or loses more than one type of use, the site area has been calculated proportionately using the proposed floorspace loss or gain as a guide. In cases where it is not possible to ascertain a breakdown of how much floorspace or land is being lost or created, the overall floorspace / site area has been reported or it has only been shown that a planning application exists, but the site area or floorspace measurements are not reported at all.

1.10 Consideration has also been given to whether developments are on existing employment development land or whether new employment development land is being created. In the circumstance where a scheme intensifies the use of existing site, only the part of that site that receives new development has been reported as new economic development land and not the entire site.

¹ <https://www.planningportal.co.uk/permission/common-projects/change-of-use/use-classes>

Why monitor employment land statistics?

- 1.11 The Cotswold District Local Plan (2011-31) (the adopted Local Plan) implements economic objectives through several policies, which include providing land allocated for employment development (policies S1-S19) and protecting Established Employment Sites (policy EC2). Through this, the adopted Local Plan provides the spatial framework to support the implementation of the Council's corporate priorities and the strategic economic ambitions for Gloucestershire.
- 1.12 Monitoring also helps to identify patterns of change and tests whether policies are working or whether they will need to be revised in the next Local Plan review. Furthermore, providing up to date information helps to make more informed decisions when determining planning applications, such as the current position on the need for a particular type of development.

2. Summary of employment development in Cotswold District 2025/26

- 2.1 Table 1 provides a summary of completed employment developments in the District in 2025/26. The completion figures should be interpreted in the context of a shortened monitoring period (see Section 1.3). As such, the low level of recorded completions reflects the timing of monitoring activity rather than a reduction in overall employment development.

Table 1 – Completions in 2025/26

Use Class	Gain		Loss		Net change	
	(ha)	(m ²)	(ha)	(m ²)	(ha)	(m ²)
E(g) – Offices / R&D / Industrial Processes	0.3	293	0	0	0.3	293
B2 – General industrial	0.17	179	1.15	2,095	-0.98	-1,916
B8 – Storage or distribution	1.36	735	0.84	1,774	0.52	-1,039

- 2.2 Table 2 summarises employment developments in the District at 1 April 2026 that had planning permission and were either not started or were under construction.

Table 2 – Commitments at 1 April 2026

Use Class	Gain		Loss		Net change	
	(ha)	(m ²)	(ha)	(m ²)	(ha)	(m ²)
E(g) – Offices / R&D / Industrial Processes	21.86	60,576	1.88	6,069	19.98	54,507
B2 – General industrial	9.74	22,717	0.85	1,907	8.89	22,708
B8 – Storage or distribution	13.19	26,761	1.37	2,161	11.82	24,600

- 2.3 Table 3 analyses whether the District's 24.4 ha employment land requirement² is on course to being delivered by 2031, which is the end of the adopted Local Plan period. The table shows that the combined total for completions for the period 2016/26, commitments at 1 April 2026 and adopted Local Plan employment land allocations are expected to fully deliver 24.4 ha employment land requirement. With the changes to the Use Classes system the Council now includes the new E(g) class instead of B1.
- 2.4 More than three times the amount of employment land is expected to be delivered by the end of the adopted Local Plan period (78.06 ha) compared to the identified requirement (24.4 ha).
- 2.5 A substantial part of this gain comes from B8 employment land, with almost double the identified requirement (9.9 ha³) already delivered and three times the amount forecast when including commitments. While B8 plays a valuable role in supporting logistics and supply chains, the scale of growth has implications for employment land availability for higher-value E(g) and B2 uses, and future economic balance. B8 typically generates lower number of jobs and occupies larger sites. The strong growth in this sector may influence the District's ability to accommodate future office, R&D, and industrial demand.

Table 3 – Gain / loss of B and E(g) class employment land

Type	Net land gained / lost (ha) (2016-2026)	Net committed land (ha) at 1 April 2026	Net remaining allocated land (ha) at 1 April 2026	Total	Requirement (ha)	Shortfall?
E(g)	9.16	19.98	8.25	37.39	16.60	No
B2	2.07	8.89	0	10.96	-2.10	No
B8	17.89	11.82	0	29.71	9.90	No
Total	29.12	40.69	8.25	78.06	24.40	No

² Provided in adopted Local Plan policy DS1 for the period 1 April 2016 to 31 March 2031

³ Provided at paragraph 6.1.4 of the adopted Local Plan for the period 1 April 2016 to 31 March 2031

- 2.6 The adopted Local Plan also includes a forecasted gain of 64,626m² B1 Office floorspace⁴. However, with the changes to the Use Classes system, developers are now able to gain permission for E(g) Use Class without needing to specify which of the 3 sub-divisions (such as E(g)(i) – Offices) they are planning to implement. The forecasted gain is therefore now compared to the overall figures for the new E(g) class.

Table 4 – Gain / loss of E(g) Floorspace

Type	Floorspace forecast (m ²) (2016-2031)	Annualised floorspace forecast (m ²)	Net floorspace gained / lost (m ²)	Net committed floorspace (m ²) at 1 April 2026	Cumulative E(g) floorspace built or committed (m ²) at 1 April 2026
E(g)	64,626	4,308	7,746	54,507	62,253

- 2.7 Table 5 monitors the adopted Local Plan employment land allocations. Four of the allocations have gained planning permission since the adoption of the Local in August 2018.

Table 5 – Employment Land Allocations at 1 April 2026

Parish	Site Name	Size (ha)	Type	Permission
Allocations with Permissions				
Cirencester	Land to the south of Chesterton	9.10	B1/B2/B8	16/00054/OUT
Bourton-on-the-Water	Land north of Bourton Industrial Estate / Business Park	3.38	B1/B2/B8	15/03318/OUT
Chipping Campden	Battle Brook / Extension to Campden Business Park	0.67	B1/B2/B8	21/03116/OUT
Willersey	Land north of B4632 and east of employment estate	1.97	B1/B2/B8	22/03534/FUL
Allocations Without Permissions				
Lechlade	Land north of Butler's Court	1.25	B1	–
Moreton-in-Marsh	Fire Service College B	7.00	B1	–

⁴ Provided at paragraph 6.1.4 of the adopted Local Plan for the period 1 April 2016 to 31 March 2031

3. Completions in 2025/26

3.1 Table 6 lists the economic developments completed in Cotswold District in 2025/26 by individual sites. See Section 1.3 for an explanation on the shortened monitoring period for this year and the reduced completion figures.

Table 6 – Net completions by individual sites in 2025/2026
